

Mitigation Strategies

- All families will complete the COVID-19 symptom screening web app at home daily.
- Students will enter through a designated entrance and follow school procedures.
- Students will use hand sanitizer when they enter the building and before/after lunch/recess.
- Three-foot physical distancing will be utilized wherever possible.
- Visitors will be permitted to enter the building for educational purposes only.

Mitigation Strategies (cont.)

- Seating charts will be maintained and seating will be assigned in cohorts for lunch (PreK-8).
- Physical education will take place outside as much as possible.
- High-touch surfaces will be cleaned at least once per day and supplies will be available for additional cleaning.
- District will request the vaccination status of all eligible students and staff.

Mitigation Strategies (cont.)

- BinaxNOW testing will be available for symptomatic students and staff.
- SHIELD Illinois PCR screening test will be implemented (parents may opt out).
- Vaccinations will be encouraged for all populations that are eligible, but they will not be required unless they are later required by the state.
- Masks
