

STOP THE BLEEDSM

SAVE A LIFE

Barrington Breakfast & Noon
Rotary

www.STBBarrington.com

In the event of a tornado, active shooter or any other serious catastrophe, having advanced first aid kits in classrooms throughout Barrington 220 and St Anne's schools will allow treatment of student injuries a 7 to 10 minute jump-start before professional aid arrives.

This 7 to 10 minute jump-start can be key to patient survival!

Help the Barrington Breakfast & Noon Rotary Clubs and Barrington 220 supply every classroom in the community with a **Stop the Bleed Kit**

\$38.00 provides one kit - please consider sponsoring a classroom!

Paramedics from the Barrington Fire Department will provide hands-on training to classroom teachers & school administrators who will be called upon to perform life saving treatment until professional help arrives.

Thank you for your support!
