

# Extended Art Program

## What is Extended Art?

Extended Art is an art class for artistically exceptional and highly motivated students. It is separate from the required art course in the arts and tech rotation at the middle schools. This class is designed for students who love learning about art and are self-motivated in their art creation. The content of the class is designed to challenge these students.

In this class students will research art history and take notes, make connections between art culture and their own art, and be asked to keep a working sketchbook with completed sketches from inside and outside of the scheduled art class. These activities will be in addition to creating artworks of varying media during class.

**Sixth graders meet once a week for 30 minutes, while 7<sup>th</sup> and 8<sup>th</sup> graders meet twice a week for 30 minutes during school hours. This is NOT an after-school program. This is a program that meets during the advisory time-slot, but does not replace advisory. Band, orchestra, and chorus students are also able to participate in Extended Art.**

## How do I apply?

1. Complete the enclosed APPLICATION FORM and the STUDENT/PARENT AGREEMENT.
2. Prepare a portfolio of 3 pieces of your artwork specific to the instructions outlined on the PORTFOLIO DIRECTIONS/REQUIREMENTS page.
3. Submit all of these application materials to your child's art teacher between April 3rd and April 7th, 2017. Portfolios will be judged by a team of art specialists and results will be mailed to you by the end of May.

# **Extended Art Portfolio Directions/Requirements**

## **1. Make a Portfolio.**

The purpose of the portfolio is to secure your artwork and be a means of transporting your artwork to and from your teacher for evaluation. The portfolio should be simple, such as a standard size poster board folded in half with taped or stapled sides to secure artwork inside.

## **2. Attach completed Application Form and Parent/Student Agreement to the front of the portfolio.**

## **3. Create 3 pieces of original artwork as specified by the directions below.**

- 1) Using only pencil, draw a realistic figure in motion. (Such as a dancer, skateboarder, runner, acrobat, etc.)
- 2) Design a new product/invention by drawing (2D) or building it (3D); include a brief description about your product. (Think about things you could design to solve a problem of yours, another person's, or the world's)
- 3) Free choice; either two-dimensional or three-dimensional. (Such as drawing, painting, photography, sculpture, ceramics, collage, etc.)

(Figure Completion Exercise completed in class and kept on file by art teacher.)

### **Please note:**

- ✓ Portfolios are assessed on composition, creativity, and craftsmanship.
- ✓ If submitting three-dimensional art, take a photograph and include the photograph in your portfolio, not the three-dimensional form itself.
- ✓ Artwork should show evidence of substantial time, effort, and thought by the student.
- ✓ No copyrighted material, traced, coloring book, or worksheet pages should be included.
- ✓ The Extended Art Program has a strong foundation in independent work. Formal work from commercial classes can often alter a student's true ability and does not foster the independence we expect from an Extended Art student. Therefore help from commercial classes and outside sources is prohibited and will result in a disqualification of those particular artworks.

## **4. Label each piece of artwork with name, current grade, and teacher. Please make certain that all labels are firmly attached.**

## **5. Turn in completed portfolio to your art teacher between April 3-7, 2017.**
