

## **PTO General Meeting – 10/10/19**

Motion to Start: Dani Kusmerz Second: Lenore Polchert

Start Time: 7:05pm

### **Presidents**

#### President's Council

- Distance Learning Plan: not official yet, but if it passes, Dr. Harris will be able to call a snow day or a distance learning day. A snow day meaning nothing goes on. If a distance learning day, then whatever the classroom teacher uses to communicate via their iPads would be a few assignments. They would have 5 school days to complete these activities and rather than being given a grade, they will be given attendance credit so that we don't have to make up days at the end of the year. If there was no power or a snow day right after a holiday, then we would have a snow day. The days will look a lot different for elementary students vs high school students.

Five hours of work equals a school day and the intention is not for parents to sit and be the teacher that day, but rather for the students being able to complete everything on their own. This won't be accessible for sick children, but only a school wide event.
